

# ONE BASIN-ONE WAY! DISTANCE LEARNING BEGINS TODAY

Thursday, March 26, 2020

## **ONE BASIN-One Way! Requirements for Distance Learning**

**ONE BASIN-One Way! is here to help and we have found a creative solution to the COVID-19 crisis by creating Distance Learning.** Distance Learning is a live, instructor led training method where instructors and students do not meet in a classroom but use the Internet to have classes.

The ONE BASIN-One Way! Advisory Group has decided to begin offering the **ONE BASIN-One Way! Orientation in a Distance Learning model beginning today, Thursday, March 26, 2020.** This will be a **temporary** solution to ensure workers still receive the orientation required, while avoiding unnecessary exposure.

In this model, students will take the course from the convenience of their own computer, laptop or cell phone while still having the ability and expectation to interact with the instructor in a real-time setting.

### **To take the ONE BASIN-One Way! Orientation in a Distance Learning setting, students must use:**

- A computer or laptop with a microphone and an embedded camera or webcam; or
- A cell phone using either the **Blackboard** app or **Zoom** app installed;
- Email confirmation received by the student or received by the individual that registered the student.

The student will click on the link in the email confirmation and be logged in and ready to learn about 15 minutes prior to the class start time. **The student should test their system**

**speakers, microphone and camera prior to the class start time so the course is not disrupted.**

**Other items to note:**

- **The student's camera must be on at all times** and he or she must be in the room where the instructor and student can interact (**Blackboard** or **Zoom**).
- The student will be required to have their photo uploaded to their ProCertX profile before the start of class **OR** show their photo ID to the instructor via their webcam once they are logged in.
- **To earn a certificate**, the student must register and attend the entire course. The ONE BASIN-One Way! certificate will be available on his/her ProCertX profile as soon as the instructor checks the student out of the course. The student may then print their profile page to be used as a badge or take a photo of their profile and QR code to show at any site where he or she is working. **This is a short-term solution; the student must work toward getting their photo in their profile so a physical badge can be printed and mailed.** While the QR code in the ProCertX profile will show that you have completed the ONE BASIN-One Way! training, we cannot guarantee that the company sites will allow you to work on their locations without your picture on a badge.
- **To receive a printed badge**, the student must have a photo uploaded to their profile and provide an accurate mailing address **preferably** prior to the start of class, but no more than two weeks after the class. The ONE BASIN-One Way! training administrators will print the badge and ship it to the address identified for the student within ProCertX.
